A Great Victory

**A Terrible Case of Scrofula
Cured by**

Hood's Sarsaparilla

"In the winter of 1879 I was attacked with
Scrofula in one of the most aggravating forms.
At one time I had no less than thirteen large
abscesses over and around my neck and throat,
continually exuding an offensive mass of
bloody matter disgusting to behold, and
almost intolerable to endure. It is impossible
to fully describe my sufferings, as the case
was complicated with Chronic Catarrh. After
three years of misery, having been treated by
three physicians, I was worse than ever.
Finally, on the recommendation of W. J.
Huntley, druggist of Lockport, I was induced
to try Hood's Sarsaparilla. And now, after
having taken twelve bottles, within the last
twelve months, the scrofulous eruptions have
entirely ceased, and the abscesses have all
disappeared, except the unsightly scars, which
are daily becoming smaller by degrees, and
eventually less. I do not know that I may
have done for others, but I do know that in
my case, Hood's Sarsaparilla has proved an
effective specific indeed. As an evidence of
my gratitude I send these facts unhesitatingly,
and am ready to verify the authenticity of
this cure, by personal correspondence with
any one who doubts it." CHARLES A. HUN-
TER, East Wilton, N. Y.

This statement is confirmed by W. J. Hunt-
ley, druggist of Lockport, N. Y., who calls the
cure a great victory for Hood's Sarsaparilla.

STRANGE STORIES TOLD BY RESI-
DENTS OF NINETY-SIX, S. C.

Earthquake shocks felt for the last

Eighteen Months—The Disturbances Ac-

companied by Loud Reports—An In-

habitant Who Felt "Pretty Bad"—The

Noises Said To Be Volcanic.

CHARLESTON, S. C., Oct. 13.—A local

scientist known to be an accurate observer

was recently selected to investigate the story

that earthquake shocks had been felt at

Ninety-Six, S. C., about ninety miles from

the Georgia line and 100 from Charleston for

eighteen months past, and were increasing in

frequency and vigor. His report confirms it.

The influential farmer, J. M. Kinard, liv-

ing at the seat of the trouble, says he first

heard the underground noise in January,

1885. It was then brief and dull, like the re-

port of a cannon fired several miles from

the observer. All others who were inter-

viewed gave the same account of the

noises, but did not notice them until Sep-

tember of last year. Mr. Kinard counted the

noises, frequently the first day, but did not

hear them again for several

weeks. The longest period of rest be-

tween the sounds, all agree, was just before

the Charleston earthquake. The sound of

that movement was not similar—it was the

roaring of a train of cars and lasted

longer than the others. The others were dull

booms, without repetitions. They all caused

houses to shake on their bases, and a great

number of railroad engines stopped near Mr. Kinard's

several months ago were badly frightened.

For the two weeks before last week the

noises were heard night and day, and a few

persons had a single night of sleep.

Ten reports were heard Sunday night of

last week, two of them so heavy that Mr. T.

S. Blake, whose scientific attainments make

him a credible witness, says he twice

was thinking a thunderstorm was passing,

but the sky was clear. The reports have

been heard at intervals ever since. John

Williamson says one shock of that Sunday

night made his house, a new one, tremble for

half a minute. He had a peculiar experi-

ence the Monday evening following. He

was picking cotton and was on his knees

when a shock came which jarred him all

over and made him feel "pretty bad." These

shocks come from the southeast, and seem

to be almost vertical impulses. The dis-

tance affected is about ten to fifteen miles,

erecting what is known as the "Cambridge

lands." The soil is a tenacious red clay of

great fertility. The country is traversed by

two creeks, which unite at that Sunday

night made his house, a new one, tremble for

half a minute. He had a peculiar experi-

THE NEWS IN BRIEF.

Meese are becoming numerous in Maine,

as a result of well-enforced game laws.

The Beck & Marshall Carpet company of

St. Louis failed Monday for \$70,000, the

principal creditors being in Chicago and Cin-

cinnati.

One of the leading Paris newspapers, in

discussing the need of neutrality in Egypt,

Monday, says that England's annexation of

that country would amount to a coup d'etat.

The eighteen window-glass factories in

New York state and others factories in

the northern district will resume operations

at once, the wages question having been set-

tled.

The visible supply of wheat and corn is,

respectively, 22,757,433 and 13,777,642 bushels.

Since last report wheat increased 1,567,083

bushels and corn has been augmented 32,613

bushels.

Francis fires in McIntosh county, Dakota,

have destroyed barns, houses, hay and grain,

in some instances rendering families desti-

tute. The country is reported to be a black

and waste for miles in all directions.

At Detroit Monday Judge Brown, of the

United States circuit court, decided that the

law against importing labor is constitutional.

The court was composed by one John

Craig, who imported ship carpenters from

Canada.

West-bound freight traffic on the Pennsylv-

ania, Fairbanks, Fort Wayne, and Balti-

more & Ohio roads has increased to such an

extent that a blockade prevails at Pittsburg,

where all the yards are filled with loaded

cars.

George Swartz, aged 75, of Amity, Pa., a

monthly live stock dealer, went out driving

with two strangers who pretended to be cat-

tle buyers. When some distance from town

Swartz, at the muzzle of a gun, was com-

pelled to sign a check for \$2,000 on the

Third National bank of Washington, Pa.,

after which he was ejected from the buggy

and compelled to walk home. Payment of

the check was stopped.
